

## NATURE. STILLNESS. HEALING.

Hidden in the heart of the Karkloof Valley, our Safari Spa is where deep rest meets the wild. From the moment you arrive, you're wrapped in peace - lush green views, still air, the sound of water, and the kind of quiet you didn't know you needed.

Since 2008, we've been offering one-of-a-kind treatments led by highly trained therapists. The experience is slow, considered, and deeply nourishing — drawing on natural oils, ancient techniques, and a sensitivity to each guest's needs.

Our spa is intentionally designed to blend into the landscape. Think spacious treatment rooms, open decks with views of the bush, and a Roman bath that opens out into the trees. Wildlife often wander close — and you're welcome to wander too, from the sauna to the steam room, the reflection lounge to the hydrotherapy pools.
